

TIME CENTRAL

WATCH + JEWELLERY SERVICE

These watches are Rolex-inspired in design and are built to a high standard, featuring solid 316L stainless steel cases and bracelets. The collection is highly customizable and designed specifically for branded recognition and award programs.

Key customization options include:

Custom logo printing on the dial

Case-back options: solid stainless steel engraving or exhibition (open crystal) case back

Optional crystal printing on the case back

Movement options: Swiss or Japanese, available in quartz or automatic

Multiple case, dial, and finishing configurations to suit different award tiers

This flexibility allows each watch to be tailored to the association's branding, service milestones, or recognition requirements while maintaining consistent quality and long-term serviceability through our Canadian service center.
